School Board President-Hilary Seidel

- What is the school board working on?
 - New members
 - All school board members work during the day so they try the best they can to get to different buildings.
 - Calendar out the entire year so the community knows what is going on and what they would like to attend. Under the consent agenda is the calendar of the year. Public is invited to these meetings.
 - Fixing a budget deficit-email them directly if you have specific concerns
 - State funding has not made up the loss of revenue
 - \$8-10 million budget cuts
- Questions...
 - Some of the survey questions are hard to understand...maybe pose the verbage in a different way
 - Coronavirus Plans
 - Refer to the communication that was sent out
 - Following the Department of Health
 - Trying to dig deep on symptoms so that we keep better track of our students
 - It's only a matter of time before it is here
 - Most importantly...be specific when you are calling your kids in sick, let the office know what their symptoms are
 - Fluid situation
 - Could the district step in and tell us that our choir can't go to the Mariners game? Maybe up to the transportation office if we are providing transportation or the discretion of families.
 - Has the district said what a fever is? 100.4? 99.4?-must be 72 hours fever free before returning to school
 - Update the attendance line...asking for specifics for your child.
- School Start times.
 - Staff report will be back March 24, 2020
 - Model that eliminated the 7:30 start time so students can continue to walk to school and be safe doing so
 - Challenge is bussing.
 - National school bus driver shortage
 - Possibly use intercity transit for secondary students-it is free (this is an idea that will be proposed)
- Sex education bill

- Age appropriate standards
- Doesn't really effect our district in what we are teaching-no new curriculum at the secondary level
- Opting out is always an option
